

BUILDING SUSTAINABLE COMMUNITIES WORLDWIDE

To advance professional local government through leadership, management, innovation, and ethics.

Creating resilient, inclusive, and professionally managed communities worldwide is at the heart of ICMA's mission. From Philadelphia to the Philippines, ICMA provides expertise, technical assistance, training, and professional development to address local challenges and develop local management capacity.

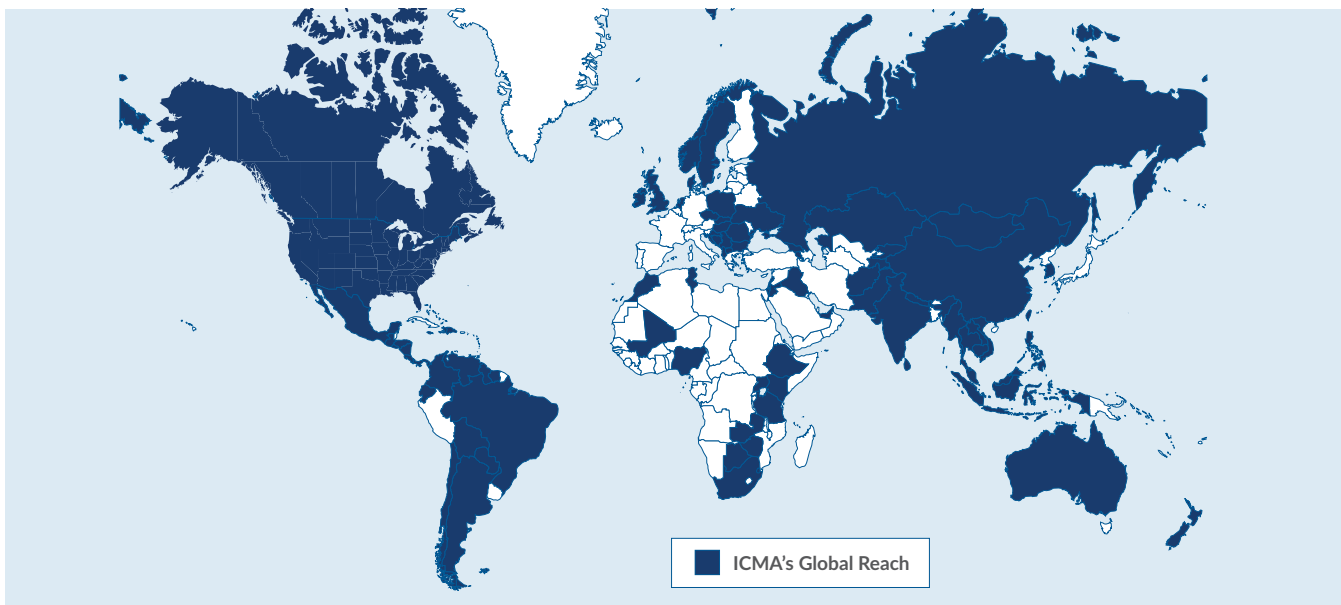

ICMA

Founded: 1914

Number of Members: >11,000

International Affiliates:
33 Countries

WHERE WE WORK

ICMA has provided consulting and training assistance to scores of U.S. cities and counties and managed on-the-ground work or facilitated technical exchanges involving more than 70 countries worldwide, shown in blue. We have multiple in-country project offices, offices in China and Mexico, and a long-standing relationship with the Urban Management Centre in Ahmedabad, India. In 2017, we have 25 active projects that involve 28 countries.

WHAT WE DO

Technical Assistance and Training

Applied and Survey Research

Communications and Outreach

Professional Development

For more than 100 years, ICMA has facilitated meaningful, results-driven partnerships. We connect cities with each other, academics, and scientists to find sustainable and tailored global solutions to urgent challenges.
