

# ***2022 SPONSOR PROGRAM***

# Arizona City/County Management Association

## **Mission:**

To promote local government excellence, professionalism and ethics by providing education, training, information exchange, professional support and mentoring to local government management professionals, students, faculty, elected officials, and the public at-large.

## **Vision:**

The Arizona City/County Management Association (ACMA) will assist local government management professionals in building sustainable communities that improve residents' lives. Arizona's cities, towns, and counties will continue to be recognized for being professionally managed by knowledgeable and ethical leaders who are committed to the best interests of the diverse communities they serve.

## **Our Impact:**

Arizona is a young and rapidly growing state where the quality of local government leadership makes a significant difference in the economic vitality and quality of life in each community.

The Arizona City/County Management Association provides education, training, and mutual exchange of information to increase the proficiency of Arizona's local government management professionals, with the goal of strengthening the quality of Arizona's local governments.

Arizona has a strong tradition of council-manager governance, in which the professional manager is the chief executive officer who provides consistent day-to-day implementation and control over local government staff, programs and budget and serves as the chief policy advisor to elected officials. This tradition empowers Arizona's cities, towns and counties through long-term professional leadership that can maintain focus on the stability, prosperity and best interests of the community beyond changes that may occur in election cycles.

Managers in city, town and county governments, in partnership with elected officials and engaged citizenry, make key decisions on local services, resource allocation, infrastructure, arts and culture, the natural and built environments and health and human services that have powerful impacts today and into the future. Key decision-makers, they also serve as primary policy advisors to elected officials at the local level.

The Arizona City/County Management Association, through its educational, networking and consulting programs and services, provides critical support needed by local professional city, town and county managers.
